

# NEBOSH

Duration: 15 Days  
Accreditation: NEBOSH

## Accreditation

---

**This workshop is accredited by NEBOSH – The National Examination Board in Occupational Safety and Health**

## Introduction/Summary

---

**This course aims to ensure that delegates develop a sound understanding of the principles of risk management in order to build or reinforce an effective safety culture in the company.**

The NEBOSH National General Certificate is for Managers, Supervisors and staff from all types of organisations who need a wide understanding of Health and Safety issues in order to be able to manage risks effectively. It can form a first step towards a career in health and safety or further professional study. Delegates should be able to demonstrate understanding through the application of knowledge to familiar and unfamiliar situations.

## Content

---

**The syllabus has been unitised to accord with QCA for England and the level of the examination is set at Level 3 to Advanced Level or Advanced GNVQ. This is set in three parts giving candidates a foundation in the practical aspects, as well as an insight into the management of occupational safety and health.**

- UNIT NGC 1: Management of Health and Safety – consisting of 8 elements\*
  - UNIT NGC 2: Controlling workplace hazards – consisting of 8 elements\*
  - UNIT NGC 3: Health and Safety practical application
- \*refer to timetable for breakdown of elements.

**The Practical Assessment:** (using the Prospects training workshops at Crompton Close)

- Workplace physical inspection and recording, including indentifying hazards, assessing risk level and indentifying actions.
- Written report to management on the inspection – concentrating on convincing management to take action.

## Duration

---

**The course is delivered through a day release programme of 15 days structured as follows:**

- 12 Days covering the NEBOSH syllabus
- 1 ½ Days revision and examination techniques with a NEBOSH examiner
- ½ Day – Practical exam
- 1 Day – written papers A1 and A2 held on Day 15

**Please note:** Delegates should not rely on course attendance as a means of achieving this result. A substantial number of hours of self study (at least 50) is also advised. Homework will be set weekly.

# Assessment

2 two-hour written exams and a practical assessment. The course covers the elements required to successfully pass the examination and practical assessment leading to non-corporate membership of The Institution of Occupational Safety and Health (IOSH).

**Please note:** As the Practical Assessment takes place on workshop premises, please ensure that you bring your **Personal Protective Equipment** for use during this part of the course (Day 12 for Site Visit and Day 13 for Practical Assessment).
